AXT13 13W

1300 LUMEN LED

MANUFACTURED IN THE UNITED STATES - IBEW

The AXT13 is designed around the Xicato[™] LED remote phosphor module. This module produces an even field of illumination for the most demanding applications. The AXT13 is ideal for museum and retail lighting where a low wattage, high output LED fixture would be required. Xicato[™] LEDs exceed ANSI specifications by maintaining tight color consistency over the life of the LED module.

The AXT13 is available in standard black, white, or silver finishes. Custom colors are available upon request.
