PRISM PAR12

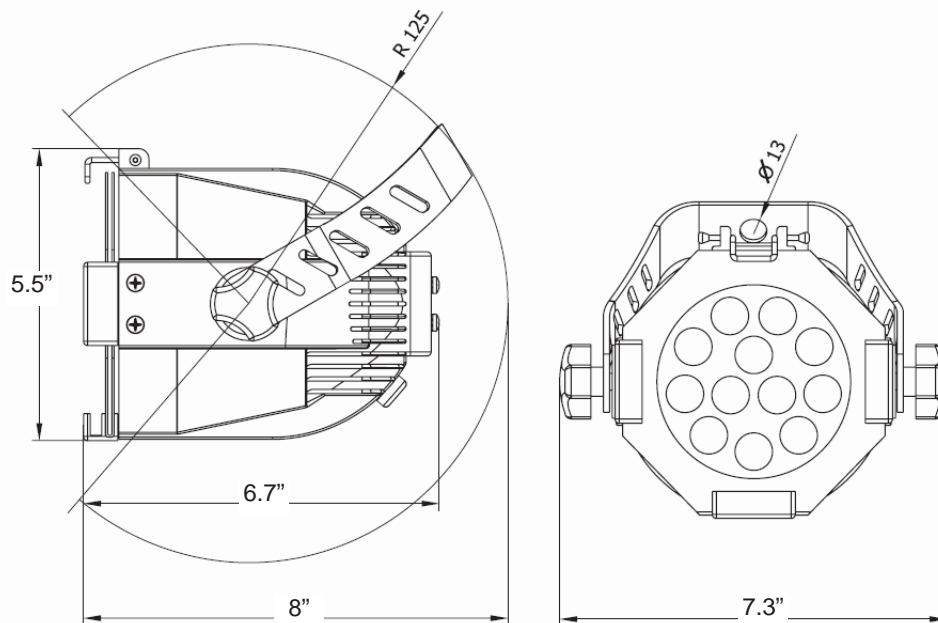

The PRISM PAR12 is the latest technological LED light source for retail or entertainment applications. The PRISM PAR 12 is ready to mount and is powder coated in either black, white or silver.

Technical Specifications:

Max. input current:	350 mA
Maximum Power Consumption:	13.6 Watts
Compatible Power Supplies:	PRISMPower 36, 72, 144, 360
Compatible Power Supplies for single colour variants:	PRISMPower SmartWhite 36, PRISMPower SmartWhite 144

Optical Systems Available:	6°, 15°, 25°, 38°
LED Device:	1 Watt Luxeon
Warm White LEDs (WW):	3300 K
Cool White LEDs (CW):	6500 K
Typical Lumen Maintenance:	70% @ 50,000 hours
Led Life Expectancy:	minimum 50,000 hours
Construction: housing:	precision extruded aluminium
"U" bracket:	aluminium plate
transparent cover:	tempered glass
finish:	black, white, silver
Weight:	3.3 lbs
Power/Data plug:	RJ45
LED Color Variants:	RGB, RGBWW, RGBCW, R, G, B, A, CW, WW
