

LED Series by Times Square Lighting

PARADE D-RGB-12 LED Strip

Exceeding the performance of other LED strips, the Parade D-RGB-12 implements twelve, 3W full-color LEDs designed to revolutionize architectural decoration. The Parade D-RGB-12 strip is a high-luminance color changer for exterior use that incorporates state of the art electronic color mixing and high reliability.

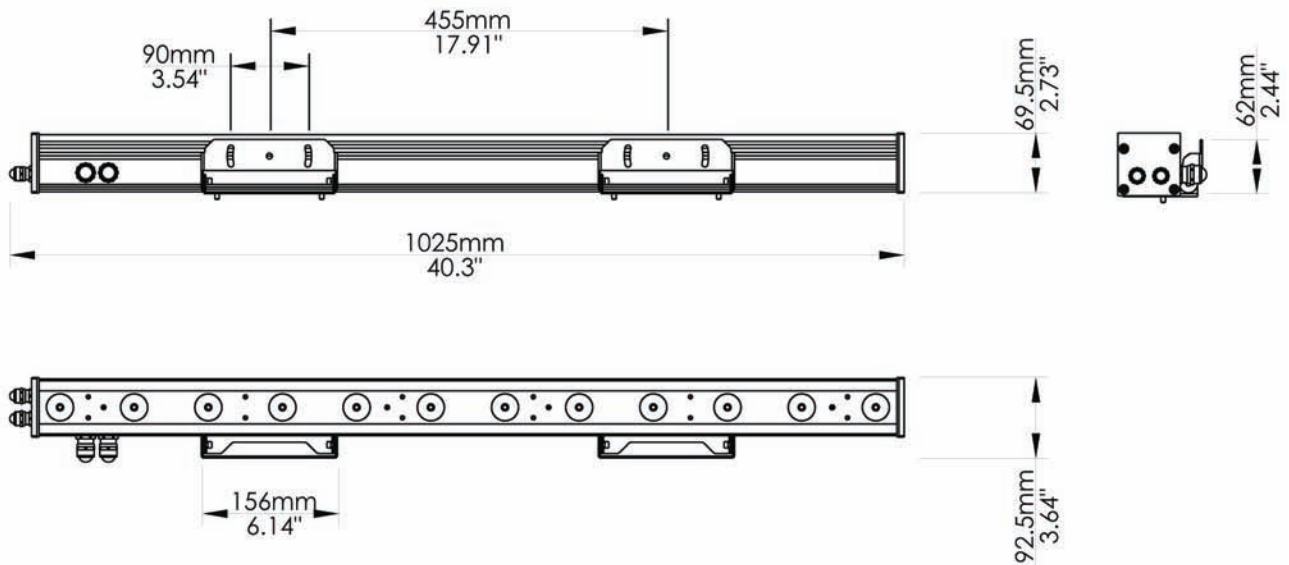

The Parade D-RGB-12 features powerful color rendering and minimal maintenance. Additional benefits include durability, low power consumption, cool running and a quick light source response time. Superb output with real uniform color coverage even on close-up installations is made possible by the elliptical optics that can project a greater portion of light with higher transmission efficiency. The Parade D-RGB-12 can be installed in any position or orientation, and features an IP67 weather protection rating.

The Parade D-RGB-12 does not require an external power supply box. Couple that with its compact size and lightweight manageability, making set-up a breeze. The Parade D-RGB-12 can be controlled by any four-channel remote DMX512 control console, stand alone, or master/slave mode.

Available models	
AL1500	Parade D-RGB-12 12°
AL1501	Parade D-RGB-12 28°
AL1503	Parade D-RGB-12 40°
AL1504	Parade D-RGB-12 10°x20°

Features:

- 12 High-power, 3W, full-color LEDs
- IP67 Extruded aluminum body
- Long-life, 100,000 hour LEDs
- Scratch resistant textured polyester grey finish, protected against UV deterioration and general corrosion.
- 1-100% Electronic dimming
