The FR30L Kissena features a classic cylinder design that is ideal for accent lighting. Paired with the Soraa long neck PAR30s, this fixture achieves a maximum of 1230 lumens.

By utilizing Soraa's Snap System, there are unlimited possibilities for customizing this fixture. Options include the ability to field change the beam angle (Beam Spreader Snap), alter color temperature (CTO Snap), or to add a louver.

The Enhance Lens Snap can increase the vividness of warm colors (including red, orange and pink and greens). Aim Snaps can bend the beam to a maximum deflection angle of 20°. Linear Snap Lenses can alter the beam to act as a wall wash.

Available in standard black, white and silver finishes. Custom colors are available by request and at an additional charge.

FEATURES

- Performance equivalent to 75W halogen PAR lamp
