Lite Channel is a custom manufactured, trimless lighting trough that is specifically made to house track lighting. The trough can be furnished with surface mounted or recessed track. The trough can be configured in any size, length, and arrangement, including mitered corners. The track can have 1, 2 or 3 circuits, 120 or 277V. Trough sections easily screw together while simultaneously joining the track sections together. Side mounted support rails are provided for threaded rod hanging. Available in white, black and silver finishes. Custom colors are available upon request at an additional charge.

### Features

- Fully recessed trough mounting
- Recessed track mounting optional
- Accepts Times Square Lighting track-mounted fixtures
- Available in 1, 2 or 3 circuit \*
- Available in 120V and 277V
- Threaded rod mounting rails provided
