Times Square Lighting Connector Strips are custom built to specification and are used to distribute permanent lighting circuits throughout an installation. Exterior dimensions are 13/4 "x 4" at a length of 2' minimum.

Connectors can be flush or pigtailed and come in a variety of styles. Can be mounted vertically or horizontally, dead hung or from moveable rigging systems. Ideal for theatres, television studios or any application requiring connections for portable lighting fixtures.

FEATURES

- Custom lengths and circuitry.
- Variety of connector styles.
- Connectors can be flush or pigtailed.
- High visibility circuit numbering.
- 18-gauge steel construction.
- Mounting brackets included.
- Shipped in 8' lengths maximum, wired through and folded.
- DMX, gateway and network ports.
- Pigtails 18" standard. Other lengths available at additional cost.

CONNECTORS

Three Pin Stage Connector

1 (Flush)
5 (Pigtail)

Edison Connector

4 (Flush Duplex)
7 (Pigtail)

Twist Lock Connector

2 (Flush 20A)

MOUNTING

Mounting strap holds up to 2" O.D. pipe.
Number of sets required is determined
by length of connector strip.

A 5' strip or less will get 2 mounting
strap & bracket assemblies.

An additional set will be provided for
every additional 5' of connector strip
ordered. Pipe supplied by others.

Wall / Ceiling Bracket
