## SORAA DIM-TO-WARM LED

MANUFACTURED IN THE UNITED STATES - IBEW

SORAA VIVID-Warm Dim lamps mimic warmer hues found in natural light, while preserving the company's flagship optical and color rendering performance throughout the dimming range. The warm dimming lamp series is the perfect option for a broad range of indoor and outdoor lighting applications with an emphasis on warmer hues.

Warm dimming capabilities give designers the flexibility to create warmer, more intimate environments. The color point mimics halogen from 2700K to 1800K, while maintaining 95 CRI and 95 R9 values throughout the dimming range.

Additional fixture features include an internal self-locking yoke, adjustable head and hinged front for easy re-lamping. Internal accessory holder accepts louvers, barndoors, hoods and a variety of filters. Available in standard black, white and silver finishes. Custom colors are available by request and at an additional charge.

Lamp	Watts	CRI	Lumens
Vivid Warm Dim	19	95 (R9 = 95)	1000

### FEATURES

- 120, 220 and 277-volt available
- Integral 12-volt dimmable driver
- Use with trailing edge & leading edge phase cut dimmers.
- 2700K to 1800K Dim-to-Warm.
- Beam angles of 25 and 36 degree.
- Rated life of 35,000 hours
- Numerous mounting options and accessories
- Dimmable
- **Weight:** 2 lbs.

### FINISH

B	Black
W	White
S	Silver
CC	Custom Color
