DRAMA FS-LED 700
350W LED Followspot

The Drama FS-LED 700 is an extremely powerful follow spot LED fixture with a 350-W LED, producing outputs comparable to a 700-watt lamp or brighter. Faders and buttons are located directly on the back of the fixture to control the unit's features. The unit has a color wheel that produces a red, green, yellow, blue, orange and white spotlight. It features a CTO wheel, used both for adjusting color temperature and the color hue of each primary and secondary color. The diameter of the spot can be easily adjusted with the unit's built-in iris, great for long throw highlighting of small objects on stage. The fader allows for smooth dimming while the strobe fader controls the random and variable strobing of the LED for fantastic effects. The unit is compact, allowing for easy transport and use in cramped spaces.

Specifications

- **COLOR:** 5 color wheel with button control
- **CTO:** 3 CTO Filters 4353K, 4997K, 5062K with fader control
- **FOCUS:** Manual Focus
- **IRIS:** Mechanical Iris with fader control
- **DIMMER:** Mechanical Dimmer with fader control
- **STROBE:** Mechanical Strobe 1-20 per second with fader control
- **POWER CONNECTION:** Power Con type
- **FASTENING SYSTEM:** 1 Adjustable Yoke (Stand Included)
- **CONTROL:** Rear Mounted Controller
- **LAMP:** 350W LED
- **COLOR TEMPERATURE:** 5800K
- **CRI:** 92.4 >
- **AVERAGE LIFETIME:** 50,000 Hours
- **ANGLE:** 10°
- **POWER SUPPLY:** Electronic Auto Switching 100V≈240V 50/60Hz
- **POWER CONSUMPTION:** Watts: 608 Amps: 5.12
- **CONTROL:** Rear Mounted controller
